

"Aunt Lucia" Being Staged by Local Cast

Directed by Miss Marie Schmitt of Universal Producing Co.
--Sid. Short Heads Cast
100 Will Take Part

On Monday and Tuesday nights, Sept. 15-16, the famous collegiate comedy will be staged in the Opera house. It will be the biggest home talent show ever staged here and includes a cast of over 100 local people. It is a burlesque comedy of college life and has been staged with tremendous success wherever played. It is a story of the homecoming at Bula Bula college. Besides the play proper it has a number of special features.

The setting is a fraternity drawing room, and the story revolves around the school awaiting the arrival of an old maid aunt, Lucia Wakefield, worth fifty million dollars, who plans to give the college a large sum of money. She is to be the honored guest at the homecoming of Bula Bula college and is an aunt of one of the girls, Betsy.

Jerry Watson, played by Mr. Sidney Short, one of the college boys, with the help of his two room mates, George and Dick, played by Arthur Kirkby and A. S. McLintock, dresses himself as an old lady, for the entertainment of his fellow fraternity brothers. While dressed in this outfit, he was mistaken by Prof. Gaddis, played by Mr. Arthur Graham, and Dean Howard, played by Mrs. W. L. Rippon, as the real Lucia Wakefield from Florida, and they immediately introduce him to the president and everyone as such. Once in this dilemma, it was impossible for him to explain without getting in bad, and so he is carried on throughout the story masquerading as Lucia Wakefield, when in reality he is only Jerry Watson.

Around this fake Aunt Lucia, all the fun and comical situations of the play develop. Well-known local people in the cast include Major R. F. Barnes, as Mr. Collins; F. S. Creagan as the wealthy butler and egg man; Miss Edith Hayson and Miss Hilda Clifford, two college girls; Miss Kathleen Miller as Evelyn Wycoff; H. T. Halliwell, as college president; Miss Bessie L. Dunlop, as Mrs. Seamore, wife of the president; the two freshmen, comedy parts by Fred Guerdard and Bert Stephenson, which are very good.

Other characters of the main cast are J. A. Kairhurst, as legals college president; while the fraternity president is T. Holstead, and cheer leader is Melvin Cornell.

The college glee club, portrayed by fifteen business men, open the show, give a lot of entertainment. The flapper chorus of the Sig-Sig-A Rette Sorority is one of the high spots of the show, and consists of 28 business men, who portray famous college girls.

The opening of the show is featured by a curtain raiser, the big Baby Pageant, with 100 children ages 5 to 7. The dramatic reader, Miss Martha Houston, gives the readings and the children furnish a very effective background. Another feature is 25 high school girls in costume choruses and special song numbers.

A full list of characters will be published in advt. and handbills. Tickets for reserved seats will be on sale at Rushton's on Sat. Sept. 13.

A very attractive window display of shooting supplies has been arranged in the store front of Pattinson's hardware, which has been entered in a competition for which prizes are given by the manufacturers of the goods advertised.

Postpone Air Mail Until Next Spring

(Cranbrook Courier)
The trans continental airmail service will not be inaugurated until next spring, but when it does come Cranbrook will definitely be one of the points of landing on the route. This information was given out by Major A. D. McLean, of Regina, district inspector of civil aviation, who was here last Sunday in company with Major E. C. G. Chambers, of the Royal Canadian Engineers, Ottawa, and Captain Arthur Curtis Hardy, inspector of civil aviation and former manager of the St. Hubert Airport at Montreal. The three were travelling by car, and were making a final inspection of the different airports lying along the route to be covered by the mail planes when the service is actually inaugurated.

The men were met here by W. H. Wilson, representing the Board of Trade, and D. Philpot, city engineer. A thorough inspection of the landing field was made. Major McLean, who acted as spokesman for the party, considers the high power line where it now stands at least a mental hazard, as he termed it. He suggested that it be moved a sufficient distance so that all danger from it in landing and taking off would be eliminated. He also favored a few other improvements, and intimated that some extra large planes would be making use of the field.

Wonderful Talkie at Theatre Next Week

Famous Actor George Arliss of "Diarseli" Fame in Oriental Gem "The Green Goddess"

As much of the splendor of India as can be compressed into one huge Vitaphone stage was assembled for the new George Arliss picture, "The Green Goddess," an all talking Warner Bros. production which will be shown at the Palace theatre on Mon., Tues. and Wed. next.

Hampered by no such limitations as are found on the legitimate stage where Mr. Arliss first made dramatic history with this play, a great expanse of marble palace was constructed with all the priceless inlay and precious carving and jewels that have made the homes of East Indian Rajahs world famous.

Into this set the property department poured all the available supply of antique Far-Eastern furnishings.

Miners Elect New Officers

James Sloan is Chosen President to Succeed Frank Wheatley

James Sloan, of Lethbridge, will act as president of the Mine Workers' Union of Canada for the next year. He was elected by a majority of the votes of miners affiliated with the union in Alberta, over William J. White, of Coleman, his rival.

Mr. Sloan has been acting president of the union since the deposition of Frank Wheatley, in July. Ludwig Maurice, of Bellevue, will be vice president, the vote decided.

Major Hyslop, as a result of the vote will continue to act as secretary.

Other officers elected were: Members of the board, A. Fraser, Coleman; H. R. Barkhouse, Coalhurst; Robert Hall, Cammore; Arthur Pruett, Nordberg; Tellers, A. B. Coda, Lethbridge; W. M. Chapman, Coleman; J. Price, Bellevue.

New Gas Electric Engine

With its eight-cylinder gasoline engine and two electric motors purring and humming in soothing but powerful harmony, No. 47, the Canadian Pacific Railway's new gas-electric combined passenger and baggage car, embodying the latest developments in electro-motive traction, travels between Hamilton and Goderich and its sister car No. 46, between Ottawa and Waltham. These cars have a range of 400 miles at an average speed of 30 miles an hour, but attain a maximum speed of 65 miles an hour. They comprise a first-class compartment seating 36 passengers, a smoking compartment for 15 people and a 17-foot compartment for baggage and express.

Coleman High School Examination Results

In Comparison With Provincial Results Local Averages are Very Gratifying

JUNE 1930 GRADE X.
Passed Eight Units (in order of merit)

Joe John Ondrus, Ivor George Morgan, William Beveridge Fraser, Gladys Moores.

Passed seven units--William F. Borrows, Frank Edward Vincent, Earl R. Bowen, Gordon F. May.

Passed six units--Lena May Godfrey, Marie W. Olson, Mildred E. Higginbotham, Marjorie E. Halliwell, Jde Jerry Celli, R. Pattinson.

Passed five units--Maida M. Bowen, Marie M. Naylor, Gilbert M. Hoyle.

Honor students in above groups:--W. Borrows 3, Lena Godfrey 3, Marie Olsen 3, Maida Bowen 2, Ivor Morgan 2, Joe Ondrus 2, W. Fraser 1, Mildred Higginbotham 1, Gordon May 1, Gladys Moore 1.

THIRD YEAR XI.
Most of the students in this group wrote five units or less. The following succeeded in passing more than 70% of the units written:

Emma M. J. Antel 68%, Christina M. McLeod 67.4, Helen Cornt 67.6%, Lawrence Johnston 58%, Muriel Jean McDonald 56%, Helvi Hedberg 52%, Isabel Atkinson 49%.

FOURTH YEAR SUPPLEMENTARY
Students combining XI and XII)
Passed eight units--Belle Bernice Flynn 84.6%, Dulcie Richards 74% (missed much school work through sickness).

Passed seven units--Grace Helen McKinnon 61%.

Passed six units (six only written) Steve John Ondrus 73%.

GRADE XII. FULL COURSE
Passed eight units--Eira G. May Brown 72.6%.

Passed seven units--Margaret M. Allan 68.5%.

Honor students in above groups: Gwen Brown 3, Margaret Allan 3, Steve Ondrus 3, Dulcie Richards 4, Jean McDonald 1, Hartley Dunlop 1, W. Fraser 1, W. Borrows 3, Lena Godfrey 3, Marie Olson 3, Maida Bowen 2, Ivor Morgan 2, Joe Ondrus 2, Nordon May 1, Gladys Moore 1.

George Arliss in "The Green Goddess" is a Vitaphone talkie which is billed for the Palace on Mon., Tues. and Wed. of next week. One of the most talked of features of the present day, this is a picture everyone should see. This famous British actor will be remembered by his portrayal of Diarseli in the picture of that name.

Many Spend Labor Day at Bellevue

Annual Exhibition and Sports Was Drawing Card for Pass Towns on Monday

Bellevue's annual exhibition and sports day was the attraction for a large number of people of the Pass towns on Monday, Coleman being well represented, many from this town spending the greater part of the day there, and the evening as well, when the carnival in aid of the rink was the attraction, with a well patronized jumpy dance.

The 5 mile marathon road race was a disappointment, there being only two entries, won by Connors against Fournier, the latter later in the day running at Fernie in the 10-mile race and winning.

The 24 mile road race was entered by six runners and the runners came in as follows: Jack Beal, Luther Goodwin, Alfred White, John Sandilock, Jack Mills and Jim Connors. The time of the winner, Beal, was 15.03 min.

The races and athletic events proved very interesting, the high jumping of the Costick girls and Isa Penman furnishing a very keen contest, and which the record for girls of 14 years was very nearly reached.

In the exhibits Coleman was represented in various classes. Mrs. Fisher was awarded a second prize for a hand made rug, and in fancy work she was also awarded a second prize.

Geo. Reid cleaned up a number of prizes in poultry, being awarded four firsts, a special, and second and third prizes in Rhode Island Reds, Bantams and Black Minorcas. His Rhode Island hen was the championship bird of the show.

Dave Sudworth, of Coleman, also was awarded a first prize for a Rhode Island Red rooster, second for turkey tom and second for Rhode Island Red hen.

Several members of Coleman band played during the day with the West Canadian Collieries band, and in the evening Billy Fraser's orchestra enlivened the gathering in the big rink.

The exhibition was very successful, and in all classes there were very fine exhibits.

Re Enrolment of School Children

Children who will be six years of age by March 1st, 1931, may be enrolled in the public schools for this term.

Boys Warned by Magistrate for Damaging Property

A number of older boys in West Coleman were brought before Magistrate Graham for damaging school property, and severely warned that if further damage is discovered imprisonment or flogging would follow. Parents should co-operate with the school board in protecting school property, and see that boys damaging swings and fences are properly dealt with.

F. G. Graham left on Saturday for Edmonton and Mrs. Graham and children will return with him after spending the summer at the home of her parents in Edmonton.

A. L. Watkins accompanied Mr. Graham to Edmonton, and Rowland Hill and G. Neave of the bank staff travelled with them as far as Calgary, from where Mr. Hill went to Winnipeg to spend his vacation.

The sharp reports of guns breaking the still atmosphere of a summer evening caused people to wonder if a war had started among Coleman's cosmopolitan population. Unheeded and unused, a number of local sportsmen were practising in preparation for the open season of ducks and chickens by trap shooting south of town. They were O. E. S. Whiteside, H. C. McBurney, G. Pattinson, Geo. Neil, G. R. Powell, J. Cady and Ed. Driver.

ST. ALBAN'S CHURCH

Next Sunday is the 12th after Trinity. The services will be as follows:

11 a.m. Holy Communion and Sermon.

2.30 p.m. Children's service and the re-opening of Sunday school. It is hoped that all the children in the parish will be present with their parents and teachers.

IN MEMORIAM

In Loving Memory of our dear son, Albert Brockhurst, who died on September 8, 1928. Inserted by Mr. and Mrs. Samuel Brockhurst, Calgary.
"Ever remembered by his loving parents."

Palace Theatre

Thursday, Friday and Saturday, Sept. 4, 5 and 6

"MURDER WILL OUT"

'Fresh from the gardens'

Getting Back To Nature

Summer vacation days are practically over and boys and girls, youths and maidens are getting back to their school books and studies while father returns to his office or store and mother to her varied household activities. If these vacation days have been sanely and sensibly spent the result is that those who have enjoyed them go back to their studies or work refreshed in mind and body, physically strengthened, more alert mentally, and in every way better fitted for the duties that lie ahead, with stored up energy from the life-giving rays of the sun to carry them through the shorter winter days.

A well spent vacation, however, means more than this, especially for the young. There is no period, no one month or day throughout life when our education is complete, when we are not learning something, absorbing some new and possibly lasting impressions, storing up additional information, gaining in knowledge. Because for a few weeks or months we abandon the school room and text books for a camp in the woods, or a motor trip, or a sojourn in the mountains or by the sea, does not imply that during such time our education comes to a full stop. Quite the reverse is true.

Indeed, living for a few weeks in a summer cottage by one of our lovely western prairie lakes, boating, fishing, rambling through the woods by day, watching the glorious sunsets and beautiful dawns, lazily contemplating the star-bespinkled sky at night, living the simple life, both in food and dress, one is inclined seriously to question whether in this intense, highly organized, mechanical age, we are not beginning to lose some of the best things in life, and to substitute the artificial for the natural.

For example, are not those responsible for our educational system, the training of our boys and girls for their life work, mistaking something very vital and important in their programme of studies? Nowadays we take a boy or girl at the age of six or seven and introduce him and her to the great realm of books. Thus early in life we open up a new world to them, and from that time onward the tendency is for them to turn only to books or to their teachers using text books, as the source of all information. Boys and girls may thus become great students of books, but they lose the greater pleasures, the romance, the fine inspiration which comes from the study and observation of nature itself and the wonderful works of nature.

The writer confesses that he always liked the ideas and ideals and programme back of the Boy Scouts and Girl Guides movements, the training of youth in the art of close observation, of learning by doing. We like the idea of our Canadian boys and girls obtaining a knowledge of our flowers and trees, our birds and beetles and flies, even our weeds, from nature itself rather than from books; we like them to recognize the evening star, and the dipper, and the north star in the great space of the sky overhead rather than in a diagram in a text book; we prefer they should know how to build a trustworthy footbridge over a stream they may have to cross rather than be forced to go miles out of their way to find a concrete or steel structure; we like to see them capable of starting a camp fire in a few minutes, cooking their own food, setting up a tent, making a bed with boughs, leaves and a blanket or two; we admire a boy using an axe expertly. Book knowledge is all right, it must come; it is absolutely essential. But are we not making the mistake of relying almost wholly on books in our task of education and neglecting the great outdoors and the wonderful works which nature alone presents to us? Is not the early education of our Canadian boys and girls too academic in character, and not quite practical enough?

Nature study in all its many branches is much more interesting to the average boy and girl in their earlier years than is book study, and the lessons they learn from nature will remain with them when much book learning is forgotten. Furthermore, the traits and characteristics developed through close contact with, and study of nature's own methods, are traits and characteristics which create habits of observation and initiative that will be found invaluable in life, irrespective of the profession or business in which one may ultimately engage, and they are real assets which are not so easily found within the covers of books.

Canada is a land of beauty and variety. Nature has been bountiful in her gifts to the Canadian people. It behooves us, therefore, to give our boys and girls every opportunity to observe, study and appreciate these beauties, to live and learn among and from them. Vacation days are happy days, but they are also, in the writer's humble opinion, among the most valuable of all our days of learning. There should be a way found to fit them more closely into our educational system.

Egg Laying Record

The Oyster Holds Unparalleled Claim To This Honor

The world's egg-laying record, 25,000 in one second, 115,000,000 in 70 minutes, 690,000,000 in a year—all by a female oyster—is claimed by the oyster.

The feat was reported to a gathering of biologists, of international repute, civil, state and federal health authorities and shellfish commissioners from several states at the convention of the National Association of Shellfish Commissioners and the Oyster Growers and Dealers Association of North America, Inc.

Money For Farmers

Approximately \$1,000,000 is being distributed among farmers of Saskatchewan who were shareholders in the Saskatchewan Co-operative Elevator Company, Limited.

Fineness of nature is the first requisite of real beauty.

Harvesters

You'll find Minard's a certain relief for stiff or strained muscles. Rub it in and the pain disappears.

W. N. U. 1853

Menace To Motoring Public

Outworn Car Is Becoming Peril On Mondora Highway

The "One Horse Shay," made famous by Oliver Wendell Holmes, ran its course and then suddenly disappeared into atomic dust. Old cars are not as automatically disposed of, and unless some used-car dealer with the gratitude of the motoring public by committing them to the junk pile they continue to obstruct traffic on the highway until they collapse in a heap of scrap at the roadside.

There is nothing romantic, unmanly or even interesting about the final chapter of the outworn car. Too often there is tragedy in the concluding lives.

The old, out-of-date, decrepit gas wagon is more than a problem—it's a peril. It now costs \$25 in Old London to impede traffic by trying to operate an old car that should be on the junk heap. Public opinion will eventually ban such vehicles from our busiest highways, for they are certainly a menace not only to the owners, but to the motoring public as well.

"Did your husband follow my directions? Did he take the medicine I left for him religiously?" "I'm afraid he didn't, doctor. In fact, he swore every time I gave him a dose."

New Zealand is said to be the healthiest country in the world. The average expectation of life in that country for men is about 63 years and for women 65 years.

No Reciprocity

British War Veterans Will Have To Pay \$10 Visa Fee

Eighteen British war veterans, coming to the United States for a convention next month, will be required to pay the usual \$10 visa fee each, despite Great Britain's courtesy a few years ago in admitting several hundred American Legionnaires without charge.

Sir Ronald Lindsay, British ambassador, was informed in a note made public recently that the State Department regretted its inability to comply with his request for a blanket visa, but that the law gave it no alternative. A formal reciprocal agreement would be necessary, the State Department informed Sir Ronald.

Bright Eyes, Rosy Cheeks

The Birthright Of Every Girl

Dull eyes mean misery and weakness—a sure sign of a bloodless condition. Anemic girls and women have dull, heavy eyes with dark lines underneath. The bright eye of girl or woman is always happy and well.

There is one way to make the eyes bright—to bring the glow of health to pale cheeks—that is to invigorate the body with new blood—rich, red health-giving blood. Dr. Williams' Pink Pills do this and they do it well. Concerning them Mrs. Robert Devitt, Brougham, Ont., says: "My daughter became so ill and nervous we had to take her out of school. She was pale and thin; her eyes were dull and the least exertion upset her. I began giving her Dr. Williams' Pink Pills and in less than six months you most not know her. She gained in weight and strength and is now the picture of health."

Dr. Williams' Pink Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Makes Air Record

Pilot In Northern Alberta Flew 1,500 Miles In One Day, Making Five Stops

The latest of many air records in Northern Alberta was recorded the other day when Captain W. N. Sherlock, of Commercial Airways, flew 1,500 miles one day, making five stops en route for the delivery of letters and packages. The trip was made from Fort McMurray to Alkavik, with stops at Fort Resolution, Fort Simpson, Fort Norman, Fort McPherson and Arctic Red River. Captain Sherlock hails from Cumberland, England, and is a former member of the R.A.F.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the system and a cessation of manifestations of internal trouble.

Chain Letters

New Flood Of Chain Letters Cause Trouble To Postal Authorities

London postal authorities are again fighting a new flood of chain letters. "The latest of them begins with the name of Charles Lindbergh, Colonel Daves, Bernard Shaw, John Barrymore, Dorothy Dix and Ramsay MacDonald. By the letter, one is given to understand that all these celebrated people have written nine letters to nine other people. A subtle threat of sudden death to anyone who fails to carry on the chain is hidden in the wording.

Inhalant Minard's Liniment For Asthma.

Beautifying Stations

The campaign launched this season by the Canadian National Railways in the beautifying of its station grounds, was a successful move. With a result that a larger appropriation will be considered for this work next year, A. A. Tisdale, general manager, announced.

At one time recently there were 200,000 dogskins at Chinese ports awaiting shipment to other countries.

Automatic telephones have just been installed in Singapore, British Malaya.

A Wonderful Man

Sir Wilfred Grenfell "Father" Of Labrador Is Well Named

That wonderful man, Sir Wilfred Thomason Grenfell, K.C.M.G., "father" of Labrador, will shortly be visiting London, when a Mansion House meeting will be held in his honor.

A doctor by profession, he has a passionate love for the sea, and has done much for the benefit of North Sea fishermen. Dr. Grenfell has completely revolutionized Labrador. He built five hospitals, seven nursing stations, two orphanages, two large schools, several co-operative stores, in addition to setting on foot much industrial work. He has been completely revolutionized Labrador.

Although 65, he still takes an annual cruise in one of his hospital steamers along the Northern Newfoundland and Labrador coasts. His work in Labrador is carried on under four committees, one British, one Canadian, one Newfoundland, and one American.

He is an Oxford man, and played for the university in the Rugby football team. In 1929 he became Lord Rector of St. Andrews University.

Recipes For This Week

(By Betty Barclay)

SMOR RINGER COOKIE

1 cupful butter.
1 cupful sugar.
Yolk of egg.
A pinch of salt.
1 cupful milk.
1 teaspoonful baking powder.
Pinch of salt.
Flour.

Cream sugar with the butter; add the beaten egg yolk, milk, salt, and flavoring. Sift baking powder with 1 cupful of flour. Add more flour until a dough is formed that is easily handled. Roll quite thin, cut in strips, then twist and form in circles.

BAKED WINTER SQUASH

Wash the squash. Cut and remove seeds and pulp. Then cut squashes and place in a pan containing a little water. Place in a moderate oven and bake until the pulp is soft, basting occasionally with a little hot water and butter. When nearly done sprinkle lightly with brown sugar and dot with butter. Finish baking and serve a square to each person.

Replaced the Breakage

Elderly Woman Is Made Happy By Gift Of Prince

Miss Raymond, an elderly and humble resident of the south of London, has been made happy by a kindly act of the Prince of Wales.

She lives in a hotel in the neighborhood of the cricket ground where the Prince went to attend the England-Australia match.

During an interval in the play the Prince and a party of friends visited the hotel, and one of the old lady's vases accidentally was overturned and broken.

The next day the Prince sent a colored statuette of himself in hunting costume, accompanied by a letter regretting the breakage, and hoping that she would accept the substitute instead.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Green's Worm Exterminator, an excellent remedy.

British Columbia Minerals

A report of Hon. W. A. MacKenzie, Minister of Mines in British Columbia, shows an increased quantity production in the aggregate of minerals and metals, though the dollar gross value dropped from \$34,122,722 in the first half of 1929 to \$29,090,487 for the half year of 1930.

Great Barford, where the first inquest held in England was recorded in 1100, has just had its first death inquiry in 13 years.

Minard's Liniment for Cuts and Abrasions.

British Rule In India

What England Has Done and Can Do For People Of That Country

"Downmaster" writes as follows in the Canadian Churchman: The achievements of England in India during the last century, I think I may safely say, constitute one of the brightest pages in the history of our race and Empire. Like all human records, it is not of course without its blot. But I think it has on the whole fully justified Macaulay's glowing words in his celebrated essay on the character and work of Lord Clive. "If in India the yoke of foreign masters, elsewhere the heaviest of all yokes, has been found lighter than that of any native dynasty, if that gang of public robbers that once spread terror through the whole plain of Bengal has been succeeded by a body of functionaries not more highly distinguished by ability and diligence than by integrity, disinterestedness and public spirit, if we see men like Munro, Elphinstone and Metcalfe, after leading victorious armies and deposing kings, return proud of their honorable poverty, the praise is in no small measure due to Clive." But to me, and I believe to the great majority of Britons throughout the Empire, England's noblest achievements in this connection will be the gradual fitting of the inhabitants of the Indian peninsula for self-government and should the event demand it, ultimate independence.

Test Dirigible Possibilities

Series Of Flights Between England and Egypt This Winter

Commercial possibilities of British dirigibles will be tested in a series of flights between England and Egypt this winter, according to Sir John F. A. Higgins, of the British Air Ministry, who was in Ottawa, recently.

The durability of the R-100 was amply demonstrated in its trip to Canada, he said, but data on costs of operating a regular service must be obtained.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

Although hippopotami are less than five feet in height, they often reach a weight of over four tons.

Workers of Paris are complaining that their living expenses are mounting.

Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door, Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

A Belated Message

Message Sent By Arctic Explorer 28 Years Ago Has Been Found

A cork flask containing a message written in 1902, by Evelyn Briggs Baldwin, leader of a United States exploring expedition to Franz Joseph Land, was found by a member of the Soviet Arctic expedition to the same northern country. The message, discovered 28 years late, asks that shipment be rushed of fuel, sleds, dogs and food.

Baldwin was leader of the Baldwin-Ziegler expedition, which, in 1902, established a base in Franz Joseph Land for an attempt to reach the North Pole.

In a town in Turkey, it is the custom of fathers to plant a tree at the birth of each daughter in the family, and cut it down when she is grown to provide funds for her hope chest.

The keyboard of a typewriter is so arranged that the letters which are most frequently associated may be most easily reached by the fingers.

Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes:—"I am the mother of six children, and would not be without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest were very sick with summer complaint, and there was nothing I tried could quiet their remedy, and I had tried most everything, but they could get no relief. Dr. Fowler's made a change in both of them in less than two hours."

On the market for the past 85 years; put up only by The T. Millbrae Co., Ltd., Toronto, Ont.

PARLIAMENT TO OPEN ON MONDAY, SEPTEMBER 8

Ottawa, Ont. — Parliament will open on Monday, September 8. Official announcement of the date of the opening was made by Sir George Perley, acting prime minister and war-time Canadian high commissioner in London, England.

The hour set for the opening, Sir George Perley stated, is 12 o'clock noon, although the more formal procedure will not take place until 3 o'clock in the afternoon. This arrangement will permit the House of Commons to get right down to business on the first day of the special session to deal with unemployment relief, and doubtless take some action on the tariff. This procedure, in view of the nature of the coming session, will be somewhat different from the usual opening.

Members of parliament will assemble in the House of Commons at the noon hour, with Arthur Beauchamp, clerk of the House, presiding. After assembling, the members will proceed to the senate chamber, where the deputy governor-general will be present, and upon the direction of His Excellency will return to the Commons to elect a Speaker. Adjournment will then be made until 3 o'clock, when, with the pomp and ceremony of tradition attendant upon the opening of parliament, Viscount Willingdon will arrive from Rideau Hall and proceed to the Upper Chamber. His Excellency the Governor-General will read the Speech from the Throne.

The address in reply to the Speech from the Throne will then be moved by the mover and seconder. Former Premier Mackenzie King will then speak, followed by Premier R. B. Bennett in his initial address on the floor of the House as Prime Minister. In all probability, Robert Gardiner, U.F.A., leader, will continue the debate and the debate will have the right-of-way until its termination.

Usually, the first session of a new parliament opens on a Wednesday and little practical business is performed that week. The opening is marked with a series of social functions at the beginning of each session, but this year, in keeping with the businesslike atmosphere of the session, there will be no state dinner nor drawing-room reception.

All members-elect are expected to be in Ottawa early Monday morning. Notices are being sent out by the clerk of the House asking their attendance in the Parliament Buildings after 9:30 o'clock on Monday morning, so that they may be sworn in. In view of the problems to be discussed, a full attendance of members of every group in the House is anticipated.

Wins Marathon Swim

Marvin Nelson, Of Iowa, Amexes \$10,000 Prize In Big Event

Toronto, Ont. — Marvin Nelson, a bronzed young Hercules who had come up from Fort Dodge, Iowa, won \$10,000 and the professional swimming championship of the world. He swam the 15-mile course of the Canadian National Exhibition in seven hours, 43 minutes, 36 1/5 seconds, a new world's record, and climbed up on the finishing float still fresh and strong. Last year he was barred from the prize money when he collapsed, unconscious, with the end only 50 yards away.

In a race which saw the collapse of George Young, then swimming fourth; Frank Pritchard, who was in the lead; Mendel Burditt, Eli Radakovich, and many other famous swimmers, Nelson persisted to overhaul one after another of the leaders, finally passing Lord Sponner at the beginning of the last lap. In the last four miles he overcame Sponner's lead of 250 yards to finish 500 yards ahead of him.

Nelson's gesture of victory when he lifted both hands out of the water brought immediate response from the thousands massed along the lake-front. He was a smiling man of few words when welcomed by the mayor of Toronto and a battery of photographers. "All right, that's fine—I'm satisfied," summed up his feelings. He strolled about the float and the photographers' barge without embarrassment or weariness, and was the first great leader Sponner when the Port Colborne youth finished seven minutes after himself.

Honey production in Canada totals more than \$5,000,000.

W. N. U. 1858

Has Faith In Canada

Premier Brownlee Is Optimistic Over Future Of Dominion

Sincoe, Ont. — Speaking before the Sincoe Rotary Club, Hon. John E. Brownlee, premier of Alberta, and distinguished son of Norfolk, commented on the subject of immigration and unemployment in the province of Alberta.

Referring to the continued influx of immigrants to the West, he said: "They have been coming into the Peace River country at a great rate in the last couple of years. You cannot continue to pour people into this country like that without experiencing a set back. The country again cannot assimilate them and it becomes a serious problem when an era of low prices and falling markets sets in. Many easterners have been unable to understand why Alberta wanted the bans up against immigration. The present situation affords the answer."

At the same time Premier Brownlee took occasion to refute newspaper reports of Red activities in Alberta. "You will find more Reds in the city of Toronto or the city of Hamilton in one day," he declared, "than you would find in our province in a year."

He defended the policy of the western Wheat Pool in connection with marketing the wheat crop, asserting that the pool had always been exporting its just share. "It is just one of those cycles," he believed, "when there is an over production in the basic commodities of life and the country suffers a temporary depression."

Premier Brownlee declared himself to be an optimist about the future. "It may be one month, two months, a year, or maybe more before conditions right themselves, but of the future of this country we can have no doubt."

Proposed Changes In Homesteading Policies

Will Be Presented To Government By Saskatchewan Commission

Saskatoon, Sask. — Findings of the Royal Saskatchewan Commission on Immigration and Settlement which will be presented to the government will, if acted upon, involve radical changes in the homesteading policies of the past, Dr. W. W. Swanson, chairman of the commission, announced.

One of the most interesting and important researches of the commission, he stated, dealt with vacant lands. Since the return of the natural resources to the province is becoming imperative to devise a program based upon sound policy for the development of these lands and this the commission had attempted to do.

Dr. Swanson said the commission had attempted to indicate the nature of the situation. Researches were made by the commission into the present condition of agriculture and its future possibilities with a view to relating these to immigration and settlement.

Many other problems, rural and urban, had been studied so that the entire report comprises a comprehensive and detailed analysis of the basic problems affecting immigration, colonization and employment.

A Great Discovery

British Delegate To Medical Convention Discovers Value Of Insulin

Winnipeg, Man. — Insulin, discovery of a Canadian research expert, is one of the greatest advances in medical science, according to Sir William Taylor, K.B.E., C.B., of Dublin, Ireland, who is here attending the British Medical Association convention.

"Diabetes mellitus, which has always proved fatal, particularly in early life, could now be controlled. Insulin had altered the whole treatment of the disease. 'With the aid of insulin, I have been able to perform operations which I could not have dreamed of without it,' declared Sir William.

Referring to birth control, Sir William expressed himself in favor of it insofar as it tended to raise the health standard. "It is a good deal better to exercise control than to allow a super-abundance of children to be brought into the world who cannot be properly educated, or properly fed," he commented.

Air Mail From Iceland

First Delivery Made To Halifax By German Fliers

Halifax, N.S. — The first air mail from Iceland and Greenland to Canada arrived here August 25, in the custody of Captain Wolfgang von Gronau and his companions aboard the flying boat D-142, which flew to Halifax from Greenport, N.S., after a flight from Germany to Iceland, Greenland and Labrador. Captain Gronau delivered the mail to D. A. King, postmaster here.

INITIAL PAYMENT OF POOL IS SET AT SIXTY CENTS

Winnipeg, Man. — Days of anxious waiting are over and now the 154,000 western farmers, members of the prairie wheat pools, know what the initial payment is to be on the 1930 crop.

It will be the lowest in the seven-year history of the pools: 60 cents a bushel on wheat; oats, No. 2 C.W., 30 cents; barley, No. 3 C.W., 25 cents; rye, No. 2 C.W., 35 cents, and flax, No. 1 N.W., \$1.25. The 60 cent payment on wheat will be made on the basis of No. 1 Northern Grade at Port William.

Along with the official announcement from A. J. McPhail, chairman of the Canadian Co-operative Wheat Producers Limited, the central selling agency of the pools, and from Premier John Bracken, of Manitoba, came a plea to the creditors of the western agriculturalists to be lenient. The same plea was made in Regina, at a conference of wheat growers, business men, and members of the Saskatchewan Government, under the leadership of Premier J. T. M. Anderson.

Both Mr. McPhail and Mr. Bracken drew attention to the serious situation facing the prairie farmers, who, for the second year in succession, in face of depressed world grain values, are now harvesting a crop below the average in yield.

"The government of Manitoba," said Premier Bracken, "believes that in the present emergency industrial and financial interests should refrain from unduly pressing collections from farmer debtors. It is in the interests of all Canada that our farmers should not be embarrassed by too energetic attempts by competing creditors to collect larger payments than farmers are able to pay." Sale of the prairie crops "under pressure" would depress values, with serious consequences to the agricultural and business interests of the Dominion, he said.

Mr. McPhail declared: "As the welfare of our prairie provinces is almost entirely dependent on the solvency of our agricultural industry, we hope and feel confident that all interests concerned in the welfare of western Canada will co-operate in minimizing the difficulties our farmers are facing at the present time."

The chairman of the central selling agency stated that a further payment which would involve an increase in the initial payment "will be made at as early a date as market and financial conditions will permit."

Since the formation of the wheat pools in the west, with the exception of one year, the initial payment has always been \$1 a bushel. In 1928, values were depressed, the initial payment was 85 cents a bushel.

NEW CABINET MINISTER

Dr. Murray MacLaren, new minister of pensions and national health in the Bennett cabinet, who is a native of New Brunswick, with a very distinguished career.

Government Steamer Nearing Winter Harbor

"Beothic" Battling Ice and Fog In Arctic Sea

Ottawa, Ont. — After a continuous battle with ice and fog, the Canadian Government Arctic patrol steamer "Beothic" is approaching winter harbor on Melville Island, it was announced by officials of the North West Territories branch of the Department of the Interior.

The ship is carrying the 1930 Arctic expedition which will spend some time among the Canadian Archipelago. Its immediate purpose is to re-provision the cache on Melville Island established there in 1908 by Capt. J. E. Bernier, of the C.G.S. Arctic and which has played a most important part in the exploration and the policing of Canada's northern empire.

Preserving Wild Life

Canada Ahead Of States Especially In Regard To Buffalo

Toronto, Ont. — That Canada has gone much further than the United States in some aspects of wild life preservation, particularly the conservation of buffalo, was the statement made by Colonel Paul G. Redington, chief of the U.S. Bureau of Biological Survey, who addressed the 24th annual convention at the Royal York Hotel, of the International Association of Game Fish and Conservation Commissioners.

Device Proved Successful

Detroit, Mich. — A parachute device to bring aeroplanes safely to the ground in emergency cases, operated successfully in a test conducted here. The apparatus, carried in a tube beneath the fuselage, lowered a plane from a height of 2,000 feet over Grosse Ile airport.

Burns' Descendant Sings Poet's Ballads

Enid Gray, a brilliant young soprano of Toronto, who will be at the Highland Gathering at Banff, and will sing in the ballad opera "The Ayrshire Ploughman", incorporating songs of Robert Burns, has the additional distinction of belonging to the Burns family, being a great-great-granddaughter of James Burns, first cousin to Robert Burns.

James Burns went to Ireland to be bailiff on the estate of Sir Robert Gore. Here he married Mary Young, and they had nine daughters, of whom Jane Burns was one. Jane came to Canada, where she married, and her youngest daughter Mary was the grandmother of Enid Gray.

It is interesting to note the strong physical resemblance as evidenced by comparison of photographs of Miss Gray and Robert Burns.

Climbers Conquer

Mount Robson

Members Of Mount Everest Expedition Reach Summit

Mount Robson, B.C. — Mount Robson, after many attempts has been climbed for the first time this season. A party, composed of N. E. Odell and C. G. Crawford, of London, England, both members of the Mount Everest expedition, and Terrie Moore, of Haddonfield, N.Y., successfully gained the summit.

It was in a lone attempt to climb Mount Robson, 12,972 feet high, the highest peak in the Canadian Rockies, that Newman D. Waff, of Orange, N.J., lost his life recently.

Still Holding By-Elections

No Immediate Possibility Of Law Being Amended

Ottawa, Ont. — Political observers here saw no immediate possibility of amending the elections law to obviate the necessity of cabinet ministers going before their electors at by-elections when they assume office.

Two or three years ago a resolution was read in the House of Commons recommending that by-elections for cabinet ministers be dispensed with. The government of the day promised to give consideration to it, but no vote was taken. Ontario is one province that has eliminated by-elections for its ministers.

TARIFF ACTION TO PROTECT THE FRUIT GROWERS

Ottawa, Ont. — The dumping of fruits and vegetables from the United States into the markets of Canada, which has been the cause of strenuous protest for some time past, has resulted in definite action by the government. Hon. E. B. Ryckman, Minister of National Revenue, has announced the fixing of values for fruit purposes on ten fruits and vegetables which are among the common food commodities on the Canadian table.

The fixing of value for fruit purposes means that such fruits and vegetables entering Canada must pay a duty on the basis of the valuation determined by the minister.

Provisions of the Customs Act permit the government to fix valuation on commodities entering Canada if they consider such action desirable. In the past, on the floor of the House of Commons, as well as outside parliament, the claim has been made by representatives of the Canadian fruit and vegetable growers that the "cream of the Canadian market" went to United States producers because they were in a position to bring forward their product earlier than it would be produced in Canada. There was also the claim that when the United States market was satisfied, fruit, which would otherwise have glutted that market, was dumped into Canada at a much lower price than prevailed either in United States or Canada. This, it was claimed, constituted unfair competition which the Canadian producer could not be expected to meet.

Imports of fruits and vegetables from United States have grown to considerable proportions of late years. The Canadian market has proven attractive to the producers in United States who could get their product into Canada before the home-grown fruits and vegetables were available.

The effect of the action will be to ensure that the United States fruits and vegetables covered pay duty on what is considered a fair valuation.

Comparison of the values fixed on fruits and vegetables with those prevailing heretofore is practically impossible because of variations which have existed in different parts of Canada. Apples, for instance, might enter Canada at a lower value for duty purposes in the maritime provinces than in the prairie provinces. That depends on the invoiced value of shipment.

The agitation for application of the dumping duties on fruits and vegetables naturally emanated from those sections of Canada where the commodities are largely produced.

The fruits and vegetables upon which a valuation has been fixed, together with their values for duty purposes when entering Canada from the United States are as follows:

Apples, six cents per pound; cantaloupes, five cents per pound; cantaloupes, thirteen cents per pound; celery, ten cents per pound; onions, four cents per pound; peaches, two cents per pound; pears, nine cents per pound; plums and prunes, eight cents per pound; tomatoes, ten cents per pound.

ROAD TO LONG LIFE IS SHOWN BY MEDICAL MEN

Winnipeg, Man. — "Long life and good health!" Out of the bowl of the world's medical knowledge, a toast was drunk by delegates to the 98th annual meeting of the British Medical Association. Two of Britain's most noted physicians took the platform before hundreds of their fellow doctors; one to point the road to a long life, and the other to say that good health comes unbidden.

Dr. Robert Hutchison, F.R.C.P., London's most noted iconoclast, when health fads are the delirious, shattered images right lustily. Jovially, but firmly, the British expert harked back to the good old days of mud-pies when, he said, children were probably healthier and happier than the oft-weighted, pampered, dieted, psycho-analyzed infants of today. He laughed at caloric-counters and vitamin-victims, and held up as ideal the easy-going individual who merely meanders to health.

Inability of the state to permit birth control in England was deplored by Sir James Purves-Stewart, K.C.M.B., F.R.C.P., in outlining the ways to a lengthy life. He considered heredity by far the most important factor in producing longevity, but regretted that lack of birth control permitted reproduction of far from ideal specimens of the human species, closing one doorway to longer living. The other two routes, he thought, were by the aid of the public hospital system and the family doctor.

Highlight of the day-time session was the expression of opinion on the use of radium on treatment of cancer. Dr. Malcolm Donaldson, of London, forecast the entire abolition of surgical extirpation treatment for cancer; the road to radium. Concurring, Prof. W. W. Chapman, Montreal, believed that radium has already proved superior to surgical treatment of cancer. But London's Dr. Sidney Forsdyke, disagreed. He expressed confidence in the future of radium, but considered the rare element "a long way from being the only cure" for malignant tumors.

Three ways of attaining to long life are open to the individual. According to Dr. Purves-Stewart, First, he suggested, by means of the hereditary factor — but the way is barred at present by opposition to birth control. The other two means are the public hospital system, staffed by expert physicians and surgeons, and the family doctor, named as the mainstay of the people's health.

Least religious beliefs were offered. Sir James restricted his discussion on the birth control aspect of his talk on "Long Life as a Business Proposition." But he stated: "It is an appalling thought that these good people, while they recognize the desirability of breeding healthy cattle, see no harm in permitting the indiscriminate breeding of insane and diseased human beings."

By far the most important factor in producing long life, believed the speaker, is heredity—"Long life runs in families." He mentioned, however, that nearly all the causes of shortening life are preventable, with the exception of hereditary diseases and cancers. Listed as preventable short-life causes were errors of diet, habit, and over-exhaustion, over-stress, bacterial infections and other poisons.

Passing over hereditary diseases, which he had mentioned were barred from being preventable by state laws, Sir James referred to cancer. He said that really non-preventable short-life cause. "If we venture to prophesy that, as surely as day follows night, the cause of cancer will be found," he said, "and when found, will be prevented in future."

Noted Actor Dead

Lon Chaney Succumbs To Pneumonia After Gallant Fight For Life

Los Angeles. — Lon Chaney, noted character actor of motion pictures, died here, August 26.

Lon Chaney, against which the veteran actor had fought a valiant battle for more than a week, caused his death. He was considered on the way to recovery, but a hemorrhage proved fatal.

Chaney was 51 years old.

Born on April 1, 1883, in Colorado Springs, Colo., the son of deaf and dumb parents, Chaney quit school before he had reached the fifth grade to become a "tourist's" guide on Pike's Peak.

His introduction to the theatre was as a property boy. Later he became a stage hand, and to his death he carried a card in a stage hands' organization. He got his first "break" in "The Great Train Robbery," a stage hands' benefit when he was 16 years old.

NOTES AND COMMENTS

The line of least resistance is the route most people take. The majority will not strive to accomplish anything out of the ordinary. The common round of daily duty is faithfully followed, and many feel that is all that is required, consequently they pass along in the ranks of the vast army of the mediocre.

There is always a percentage whose outlook on life spreads beyond the narrow confines of their own environment. Some walk with their eyes continually on the ground; others look forward and upward. Mentally the same simple applies, and it is to those who look upward, who develop their vision in their outlook on life, and who act in accordance with their promptings, that the world is indebted for much of its progress in the fields of science and invention. And who thereby have benefitted the human race.

You find people of these varying types in small towns and in large cities, they are much the same everywhere. Take an inventory of the people whom you know and with whom you come into contact every day. It forms an interesting analysis. And remember to make a self-analysis, which will also prove interesting.

No party or group will progress unless they have a leader whom they will stand by. No army on the field of battle can win without a commander. The mine workers of the province are now, unfortunately for them, without a real leader. Consequently their organization has been weakened by a process of boring from within. Who is to blame? The contributing factor to this situation is indifference on the part of many who would not make the effort to keep their organization intact. The result of several years constructive effort towards solidifying the ranks of the miners has been swept away. The Communists will not compromise. The loyal union miners and their representatives made the mistake of trying to meet them half way.

"An Ontario judge holds that applicants for naturalization should know enough English to read the daily papers." He is quite right! Citizenship is to be prized, or should be. Red agitators abuse the privileges of citizenship, and make fun of the flag of the country they live in. Such types are not deserving of being classed as nationals of any country. The destructive critic and the vicious pessimist are a pest to society at large, creating discontent and causing misery to those who are easily led. Like fleas on the dog, they are a nuisance.

Community effort along cultural lines is splendidly demonstrated in the annual exhibition at Bellevue. Here is a strictly mining town, which through its horticultural society produces exhibits in various lines which would be very creditable in towns or cities which have greater opportunities in this line. In products of the land, flowers, fancy work in the miners' homes, canning of fruits, home cooking and a multitude of other things essential in life, a display was seen which spoke volumes for those responsible for such efforts, and this includes the exhibitors and the directors, whose work is of real value to a community.

Life is always interesting to the man or woman who tries to contribute something towards happiness—who is not looking for some material reward for every act of sacrifice or contribution which they may make.

The man who says that advertising does not pay is he who just sits in his store waiting for business, making no effort to develop community contacts and blaming people for not dropping in. That is the quickest way to kill whatever business he may have.

A period of ideal summer weather extending over two months received a jolt on Saturday afternoon. Thick clouds rolled up from the east, and the temperature took a drop of 50 degrees. The mountain peaks were obscured and people appreciated the warmth of heating stoves, while the "sheiks" buttoned up their spreading shirt fronts and donned sweaters. Those of a practical turn of mind thought of supplies of wood and coal, and began surveying the work necessary to fix up buildings for colder weather. But there is still glorious September and October days of sunshine to be enjoyed, and though the peak of summer has passed with its pleasant holiday experiences and fragrant memories, there is still plenty of time to enjoy hikes and auto trips to many attractive spots.

Coleman last year enjoyed the distinction of being the home of the quoting champion of Canada—John Bell. Though defeated this year, his supporters will make a special effort next year to assist him in again winning the trophy.

Here and There

(595)

A spectacular high line trail ride about 7,000 feet above sea level from Banff to Lake Louise has just been inspected and found feasible by J. Murray Gibson and Jim Brewster. It is 27 miles west of Banff over timber line to a ridge looking down on the little known glacier-fed Taylor Lake and following the 7,000-foot contour to the "Concession" trail leading to Moraine Lake. It commands magnificent views of the glacial country north of the Canadian Pacific Railway west as far as the Bow Lakes and south to Mt. Assiniboine. It is 60 miles long and will probably be used for the annual official camping trip of the "Trail Riders" of the Canadian Rockies next year.

"I do not believe that the talking films will ever take the place of the legitimate stage. . . . People still appear to be building ordinary theatres," said Lady Diana Manners, famous English society hostess and equally famous as the heroine of "The Miracle" during its New York and Boston production. "Theatres at the Windsor street station, Montreal, recently, on her first visit to Canada.

The Quebec Festival of French-Canadian Folk Lore and Handicrafts at which habitants artists born and bred on the soil of Quebec province, and well-known artists from far and wide rival one another in recovering the spirit of Old France, and old New France and the age-old culture of the Gaic race, will be held this year October 16-18, according to an announcement made by the Canadian Pacific Railway, organizers of the Festival.

Travelling in two Canadian Pacific special trains, about 250 of the most eminent figures in the British medical world left Montreal for Winnipeg to attend the first convention of the British Medical Association held in Winnipeg. They were preceded by a group of 60 members of the British Tuberculosis Association, who attended a convention of tuberculosis specialists at Ninette, Man., before going to Winnipeg.

"In view of the fact that this is the last year in which Canada has a seat on the Council of the League of Nations, I could not resist the request made to me by the Prime Minister to represent the Dominion at Geneva," said Sir Robert Laird Borden, former Prime Minister of Canada, as he sailed for Europe recently aboard the Empress of Scotland.

Every activity of the Canadian Pacific Railway was stressed this year at the National Exhibition at Toronto, which was opened formally by E. W. Beatty, chairman and president of the road. An outstanding feature of the company's exhibit was the model of the new 42,500-ton Empress of Britain, greatest inter-empire passenger-vessel, launched by the Prince of Wales last June and to be in service between Quebec and Great Britain next year.

More than \$100,000,000 will be spent in each of the next three years on power production now under development in Canada. Although there are other plans for important building projects none will have a more intimate bearing on the industrial development of Canada than those now contemplated by the power industry.

John Bell, 1929 Quoit Champion, Competed at Annual Highland Festival

His Opponent in Last Year's Competition Won Prized Silver Quoit as Champion

Though John Bell failed to land the trophy this year, his effort in going to Banff at his own expense to defend the championship is to be commended. A brief report of the results as telegraphed to Wm. Bell is as follows:

Saturday's handicap—A. Rankin, sr. 1st; W. Creighton, 2nd; Harry Miller, 3rd; Johnny Durney, (the man who started the game in this province), 4th. Monday's championship games for the silver quoit—Wm. Carmichael, who was defeated in last year's final by John Bell, 1st; Harry Miller, 2nd; John Bell, 3rd; A. Rankin, jr., 4th.

Asbestos production in Canada during 1929 set up a new high record, according to the finally revised figures of the Bureau of Statistics. Shipments in 1929 amounted to 306,655 tons, valued at \$13,172,581, an increase of 12.1% in quantity and 17.2% in value as compared with the previous year. The average value received by the operators was \$43.04 per ton, compared with \$41.16 the previous year.

Nipigon trout, known all over the continent as the gamest of game fish, are coming into the spotlight again according to reports from the famous Ontario resort where the annual contest for the largest speckled trout is now in full swing and will continue until September 28. The best entry to date is a 54-lb. fish, measuring 22 inches in length and 14 in girth taken with a single spinner with six, on a 94-foot rod, by Edmund Stalter, of Paterson, N. J., July 23.

East and West, Orient and Occident, will meet in the British Empire Piping competition, one of the most important of the new features to be introduced at this year's Highland Gathering and Scottish Music Festival to be held at Banff at the end of August. Pipe-Majors John Clark and E. L. Collins of the Royal Scots Regiment of Scotland, of which Princess Mary is Colonel-in-Chief, will contest for the British Isles, while Pipe-Major W. C. MacKie of the Scottish Company of volunteers is on his way to Banff from Hong-Kong.

Prospects for increased earnings during the fall months are good and directors of the Canadian Pacific Railway have no intention of reducing the dividend, said E. W. Beatty, chairman and president of the company, recently in reply to rumors that the dividend might be cut.

Nowadays the world moves as rubber and this does not apply to automobiles alone. According to a recent report of the Canadian Government the people of Nigeria in June bought 300 pairs of shoes with rubber soles from Canada. Barbados took 2,000 pairs and Trinidad 6,665 pairs. In the export of Canadian automobile tires exceeded \$1,000,000 in value.

Canadian farmers are now producing all the fine tobacco required by Canadian manufacturers, according to a statement just issued by the Dominion Department of Agriculture which also claims that the tobacco is of better quality than that usually imported. Canadian tobacco has also become a factor in the British tobacco market.

An increase of 58% in motor tourist traffic from the United States to New Brunswick is shown in statistics for the 1930 season up to July 31 as compared with the same period last year, according to figures issued by the provincial government Bureau of Information and Tourist Travel. From returns from Canadian Customs collectors at the 24 ports of entry along the International Boundary.

It is not generally known that the Prairie Provinces—Manitoba, Saskatchewan and Alberta—contain important commercial fisheries. In 1929 the commercial value of fish caught in these provinces exceeded \$4,000,000.

Herman Trelle, of Wembley, Alberta, former wheat and oats king, won first prizes at the Regina Exhibition for his Marquis and Reward wheats. William Darnborough, of Laura, Sask., was second in the Marquis class, and E. Thomson, of Pathow, Sask., came just behind Trelle in the Reward class.

Local News

Mr. and Mrs. Marlow of Taber, were visitors last week with the latter's sister, Mrs. Hugh Dunlop.

Mr. and Mrs. H. Snowdon and family motored to Creston for the week end.

Sam McDonald, of South of Fernie, is a visitor with Mr. and Mrs. W. Bell at the Grand Union hotel.

Coleman baseball team were eliminated in the tournament at Fernie on Labor Day by Sand Point, in a very interesting and keen game.

The Misses J. Dickson, Nettie Gillespie, Evelyn Higginbotham and Myrtle Nelson are four popular Coleman girls who left on Monday to commence training in Nelson hospital.

Wm Jackson, who a few weeks ago was injured in the International mine, was moved from Coleman hospital to Calgary for further treatment, and is reported to be progressing satisfactorily.

Mr. and Mrs. H. R. Willetts of Coleman, motored to the city at the week end and were the guests of Mr. and Mrs. J. Willetts, Sr. They were accompanied by Mr. S. Protty.—Lethbridge Herald.

Mrs. J. Plante entertained a number of ladies on Wednesday afternoon in honor of Miss Clara Plante, of Lethbridge, who has been visiting here for some time, and who returned home that evening.

John Denholm was injured in McGillivray mine on Wednesday, his foot being badly injured by a fall of rock which came down without warning. Luckily he was close up to the face, or he would probably have been dangerously injured.

Mr. and Mrs. Cregan returned on Sunday from two weeks vacation. During his holidays Mr. Cregan made a trip with some friends from Lomond to North Fork, where he caught one of the largest trout on record for this season.

Miss Marie Schmitt, of the Universal Producing Co., Fairfield, Iowa, who is directing the play "Aunt Lucia" to be staged on Sept. 15-16, arrived on Monday, and has been busily engaged arranging the cast for rehearsals. At Medicine Hat last week the play was produced in aid of the general hospital, and was very successful, the organization under whose auspices it was played desiring to book again with the company. Miss Schmitt is a graduate of the University of Minnesota. This is her first tour in Canada, and she states she is delighted with the scenic beauties of the mountains.

Professor R. K. Naylor, of the faculty of McGill University, Montreal, with Mrs. Naylor, were the guests of Mr. and Mrs. J. Naylor, Second street.

Mrs. Joe Thomson of Drumheller and her daughter, Mrs. Gillespie, were the guests last week of Mr. and Mrs. J. Glendinning. They lived in Coleman eighteen years ago, and renewed acquaintance with many old friends whilst here.

What's in a Name?

The title of "Chief Running Weasel" conferred on Premier Bennett by the Indians forces a smile. Frank Graham, who hails from the same locality in New Brunswick, says it is alright, for R. B. can run so fast that it takes a really good man to catch up to him. Who enjoys the best laugh in conferring these titles—the Indians or the white men?

WHEN CHILDREN FRET

There are times when a child is too fretful or feverish to be sung to sleep. There are some pains a mother cannot put away. But there's quick comfort in Castoria!

For diarrhea, and other infantile ills, give this pure vegetable preparation. Whenever coated tongues tell of constipation; whenever there's any sign of sluggishness, Castoria has a good taste; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

CHAPTER XXVIII.

As those two in the doorway moved out of the mirror's line of reflection, Grandma lifted compassionate eyes to Jimmy Bennett. She could not speak. Her throat felt parched. Anything she might say would seem inadequate; so it was in silence Jim arose and moved dazedly toward the door that led to the room beyond.

"I'll get out the back way," he managed to say huskily. "You tell her that George K. sent for me. Tell her anything you're a mind to—except the truth. I'll be all right after a minute. . . . Don't worry. I'll . . ."

But he was too late. Charman was back, her eyes still shining as she glanced in bewilderment from Grandma's troubled countenance to the grim face of her old playmate.

"Where are you going?" she began, puzzled. "Come back, Jim. Sit down. I've got some news for you. What makes you act so queer?"

Then light broke in upon her and she cried: "Oh, look here! Did—did you see that idiot kiss me?"

Her cheeks flamed, but Jim still stood in the doorway. He might have been a statue. He didn't speak; but Grandma answered shakily: "In—the mirror, dearie. I didn't know you cared that way either of you."

"I see," said Charman. She laughed, and going close to Jim, looked at him: "And you thought, too, Jim? Really, I don't know what I blame you. It must have looked that way. That kiss—"

"You don't have to explain a kiss like that, Charman," Jim broke in gruffly. "It spoke for itself. I wish you happiness, of course; but now, . . . Uncle George is waiting for me, and . . ."

The girl drew an exasperated breath. "Let him wait," she responded. "You shan't go one step, Jim. Bennett, till I've made you and Grand-

ma understand this thing. Sit down. That kiss was—well, sort of a vicarious kiss, you understand. It was a kiss by proxy, so to speak. It wasn't me John Carter was really kissing, but a girl who's crossing the ocean now to come to him—a girl he's adored for ages, though he was too proud to say so—nothing to offer her and—Oh, you know that foolish line of thought.

"It's a long story, too long to go into now; but anyhow, he wrote to her after the old doctor died and he thought he'd be able to get married. His letter came back unopened. Then he found from a friend that she had gone abroad. He wrote in care of the American Express, and that letter came back, too. Then he tried Paris, and after following her all round Europe, the letter reached her in London, and she smiled. It was that message he brought for me to see. She smiled at once. Told him to meet her at the dock with a marriage license! Do you wonder the poor boy was a little off his head? He's been half crazy with anxiety, and—well," said Charman, a smile curving her lips. "He just naturally had a kiss some one didn't get?—and I was handy."

"Handy!" echoed Jim Bennett, staring. "Are you trying to tell me that if he'd run into Lizzie Baker he'd have kissed her?"

"That bit of humor was a herker effort on Jim's part to clear the atmosphere. In reality, it was difficult for him to speak. But his words were rewarded by a smile from Grandma and a dimple from Charman as she endeavored to reply sedately: "I'm not sure that he wouldn't have, though you know, Jim, I've been a—sister to him."

"I shouldn't hardly have thought it from the looks of things," said Grandma with uncharacteristic humor. "At one time I was pretty sure we were going to keep him in the family. How long have you known about this girl, dearie? Why didn't you tell me?"

"If I'd known you were thinking what all the Wickfield ladsyboys were thinking," replied Charman, "I would have told; but it was a confidence, and I saw no reason to violate it. John is terribly close-mouthed about his own affairs, and he didn't know that the girl loved him. I think it was an immense relief to him to talk to me, though it's my private opinion that he'd never have done so if he hadn't suspected what Wickfield was saying about—"

"Did he think you were maybe getting to love him?" asked Grandma innocently.

Charman flushed.

"He's not so conceited as all that; but he was quite right to be a little touchy. He told me ages ago. In fact, he tried to tell me the day that Moore child ruptured her appendix, but we were interrupted, and a week or so went by before he had another chance. I suppose all Wickfield thinks that he broke my heart. Sometimes I wonder why he didn't. He's tremendously easy to love."

"Are you sure that useful organ is intact?" Jim questioned.

"Intact, but battered," confessed Charman. "Jim, where are you staying? You can put up here as well as not."

"I'm at Uncle George's—left the car with Eastboro and came over by automobile, just for the fun of surprising everybody. Aunt Salina nearly passed out when I walked in at dinner time. I told her I wouldn't be back till after supper—thought if I hinted her I might get a small better to my satisfaction out of somebody."

"You don't ever need to hint for an invitation here," said Grandma. "You're welcome to invite yourself any time you want to. I've missed you like anything. Jimmy, and I presume Charman has, too, though maybe she's too bashful to let you think so."

"She means 'maidenly,' Jim," laughed Charman, "and I fear I'm not even that. I've missed you abominably, and don't mind saying so to your face. But if you're to stay to

supper you'll have to help to get it; and anyway, Grandma has talked over for one night. You close your eyes, Grandma, and get a cat-nip while we rustle the repast."

The young man arose with alacrity, and Grandma said: "You get something good and hearty, Charman. Jim's hungry after his long journey. Maybe he'd relish one of your nice omelets with bacon. And you'd better mix up some biscuits while you're about it."

"You're nothing if not hospitable, Grandma," smiled the girl, "but I refuse to be treated as company. He stooped to take the old lady's hand in a gentle grip that said, 'All's well after all,' before he followed Charman to the kitchen."

"This looks like an ark," he commented, glancing about appraisingly. "I suppose I've become accustomed to kitchenettes; and in these days when most of us don't keep a step of help, I'll admit that they save steps. Come here to the window, Charman. I want to look at you."

She smiled and answered: "Are you trying to detect gray hairs? It's a wonder I haven't got some, Jimmy." Her face glowed suddenly. Did Uncle George tell you about

"About what?" he prodded as she hesitated.

Charman shivered. It had swept over her achingly that tomorrow she would be getting supper in a kitchen belonging to some stranger. She lifted her face, and Jim sensed the unshed tears behind her lashes.

"I've had to part with 'the old house, Jim. It's more than I could swing—alone. I sign the papers tomorrow morning at the bank. Don't tell Grandma tonight. She knows it's coming, but not when. It's silly to care so much for a house, isn't it? And yet . . ."

BENEFIT WRIGLEYS

No other sweet lasts so long, costs so little or does so much for you.

Promotes good health when used regularly after every meal.

It cleanses teeth and throat, sweetens mouth and breath, and strengthens the gums.

Your health is aided while your pleasure is served.

Good and Good for You

AFTER EVERY MEAL

supper you'll have to help to get it; and anyway, Grandma has talked over for one night. You close your eyes, Grandma, and get a cat-nip while we rustle the repast."

The young man arose with alacrity, and Grandma said: "You get something good and hearty, Charman. Jim's hungry after his long journey. Maybe he'd relish one of your nice omelets with bacon. And you'd better mix up some biscuits while you're about it."

"You're nothing if not hospitable, Grandma," smiled the girl, "but I refuse to be treated as company. He stooped to take the old lady's hand in a gentle grip that said, 'All's well after all,' before he followed Charman to the kitchen."

"This looks like an ark," he commented, glancing about appraisingly. "I suppose I've become accustomed to kitchenettes; and in these days when most of us don't keep a step of help, I'll admit that they save steps. Come here to the window, Charman. I want to look at you."

She smiled and answered: "Are you trying to detect gray hairs? It's a wonder I haven't got some, Jimmy." Her face glowed suddenly. Did Uncle George tell you about

"About what?" he prodded as she hesitated.

Charman shivered. It had swept over her achingly that tomorrow she would be getting supper in a kitchen belonging to some stranger. She lifted her face, and Jim sensed the unshed tears behind her lashes.

"I've had to part with 'the old house, Jim. It's more than I could swing—alone. I sign the papers tomorrow morning at the bank. Don't tell Grandma tonight. She knows it's coming, but not when. It's silly to care so much for a house, isn't it? And yet . . ."

She turned abruptly away, did something unnecessary to the stove, and came back with a smile on her lips that twisted Jimmy's heart.

"I'm sorry, Charman," he began, "but it's the . . ."

"Now don't you tell me it's sensible," she cried, a sob in her voice. "Everybody tells me that—even Grandma. I know it's sensible, but—"

"I wasn't going to call it sensible," said Jim patiently. "I'm not even sure it is, when it hurts you. I was going to say that it's the way life usually treats us—lets us set our hearts on something, and then, when it seems as if we couldn't get it without it, takes it away. Who's buying the old place, Charman?"

er—well, with all the angles and papered. Do you catch my meaning? You'd love her, anyway. It was worth being exiled all this time to find an aunt like that, believe me."

"Was that all you found in California?" queried Charman as she measured flour into a blue bowl. She was remembering the "girl" mentioned in Lizzie Baker's letter, but Jim answered in all seriousness:

(To Be Continued).

Body Of Andree Is Found

Remains Of Famous Swedish Explorer Discovered After 33 Years

Out of the Arctic silence has come the grim last chapter of aviation's first North Pole arduous, solving after 33 years the mystery of how Balloons August Andree, Swedish balloonist-explorer, who set out in an airship, in 1897, for the top of the world, perished with his two companions.

A Norwegian scientific expedition, headed by Dr. S. Horn, has sent word to Oslo that its members had found the bodies of Andree and his mates in a camp of their making, on White Island, which lies east of the Spitzbergen group.

No trace of Andree's balloon had been found.

Andree's diary, his scientific instruments, a few scattered objects which evidently had been muzzled by bears, but left untouched, and the bodies of the explorers told the gruesome tale of a battle with the elements in which the tall, blonde aeronaut had survived his fellows.

Andree was accompanied on his trip by K. Frenkel and N. Strindberg, the latter then a handsome youth of 24, professor in a Swedish university, engaged to be married but putting off his wedding until he might return from this one last adventurous fling before settling down.

Dispatches reaching Oslo did not readily identify the man whose body was found near that of Andree, and described as well preserved.

Andree made his great Polar attempt from Dase Island, Spitzbergen, July 11, 1897. In the previous year he had failed. He had launched the idea in 1895, thirty-one years before the epochal voyage of Amundsen and Nansen, and the "Norge" sailed, accomplished Andree's ideal.

Upon a desolate plateau, at the base of a high cliff some 500 feet inland, the Norse explorers came upon the camp of death on August 6. To-day, when the bodies were found, according to the Horn party, was bringing the bodies and other effects of the explorers to Norway.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, deliciously cool to the skin, it always relieves all complications. Delightfully young and lovely. Indispensable to every dainty woman. As a powder for the face, it softens and beautifies the complexion. It is unrivaled. Tones and stimulates the skin. Recommended also to soften and make the hands flawlessly white.

Fast British Trains

Cheltenham Flyer Attains Speed of 80 Miles An Hour

When I travel from Brighton to London at night, I see nearly always at Victoria Station a few young passengers admiring the huge and handsome engine of the King Arthur class which has drawn the train. Big engines and famous trains still have an invincible attraction for youth—as you may learn at almost any station. British trains, as shown by the summer timetables, are the fastest in the world. The fastest of all is the "Cheltenham Flyer," which is timed to do the 77 miles from Swindon to London at 66 miles an hour, and actually covers the distance on many days at a speed of 80 miles an hour.

Nearly a century ago, Brunel, in this matter of speed was far ahead of his time. He thought 60 miles a rate to aim at, though there were quite a number of his contemporaries who seriously favored the imposition of a speed limit of 15 to 20 miles, for "the safety of passengers."—London Daily Mail.

It Has Many Qualities. The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

The trandellion's name comes from French words meaning Jim's tooth, bestowed on the plant because of its tooth-edged leaves.

Distemper responds quickly to Douglas' Egyptian Liniment. Keep a bottle handy in the stable.

"Some people have no initiative," says a writer, "they merely follow the lead of those with brains." Led by the know.

Minard's Liniment is a household friend.

ENO'S FRUIT SALT

The Safest, Surest Way To Health

The daily dash of ENO in a glass of water every morning is the safest, surest way to inner cleanliness. And to be inwardly clean is to be healthy.

ENO'S "Fruit Salt" is a delicious health beverage that tones and sweetens the entire system. For constipation, acid stomach, fatigue and biliousness it is without equal.

But remember, only ENO can give ENO results.

Wingless Aircraft

Successful Flight Of Latest Addition To Aircraft Is Reported

The New York Times says a wingless aircraft based on the principles of the celebrated Pletner rotor ship, has been built and successfully flown on Long Island Sound, off Manhasset, with the backing of New York capitalists.

The aircraft is described as similar in appearance to a seaplane without wings. A single motor in the nose supplies the traction through a three-bladed steel propeller. An auxiliary air-cooled gypsy motor supplies power to rotate the cylinders which take the place of wings.

Two rotors are in four sections, two on each side of the centre longitudinal line of the craft. Forward is an out-rigger rudder and behind is a small pair of tandem cockpit. Between the motor and the cockpit two long booms are used in place of the usual four longerons.

Use Minard's Liniment for Foot Ailments

Wool Warehouse Destroyed

Half a Million Dollar Loss Occasioned By Fire At Weston

Damage estimated at \$500,000 was caused by a fire which destroyed the building of the Canadian Co-operative Wool Growers, near Weston, Ont. Charred and crumpled walls containing 3,000,000 pounds of water-soaked wool were all that remained of the structure after firemen had finally conquered the blaze. Officials were at a loss to determine the cause of the fire.

Most of the huge calls used in the United States Army have been adopted from other countries.

Little Helps For This Week

"I will teach you the good and the right way."—1 Samuel xli. 23.

Live to do good; but not with thought to win. From man return of any kindness done.

Do naught, but good; for such the noble strife. Of virtue is, 'gainst nature to venture love. And for thy foe devote a brother's love. Content to wait the recompense above. Brave for the truth, to fiercelest assault. In mercy strong, in vengeance only weak.

—G. W. Bethune.

He began to talk very gently about different sorts of kindness, and that if I wished to be kind like a Christian, I must be kind without hoping for any reward, whether gratitude or anything else. He told me that the best followers of Jesus in all times had tried to do everything, however small, for God's sake, and to put themselves away.

—Juliana Horatia Ewing.

Some people are so blinded with tears from weeping over opportunities that have passed they cannot see those that are coming.

About one-fifth of the highway mileage in the United States is surfaced.

Fireproof Wallboard

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much excess acid as the symptoms disappear. You will never use crude methods when you once learn the efficiency of the Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

For Troubles due to Acid Indigestion, Constipation, Headache, Dizziness, etc.

Personal and Local

Mr James Muir returned from Alexo on Sunday after visiting his son for several weeks.

Major R F. Barnes returned last Friday from Sarcee Camp, after two months duty there.

James Park, assistant in Allan's grocery store, is spending a holiday with relatives in Kimberley.

Mr. and Mrs. A. M. Morrison and daughter Ruth returned on Friday from several weeks motor tour to Ontario.

Mr. and Mrs. Harry Armstrong and daughter May of Calgary paid a short visit to Mr. and Mrs. J. Glendenning this week.

For allowing his horse to run at large in the townsite, John Trautz was fined \$7.50 by Magistrate Graham.

Mrs. J. W. Boulton of Lethbridge has been visiting her daughter, Mrs. Sidney Short, Fifth street.

Mr. and Mrs. Thos. McDicken of Trail, B.C. are visiting with Mr. and Mrs. Holmes, sixth street, for two weeks.

Mrs. E. V. Wood, formerly of Hanna hospital, has been appointed as matron at the Miners hospital.

Mrs. Hodson of Winona, Ont., arrived last week to visit her mother, Mrs. J. Scott, who has not been enjoying very good health during recent weeks.

Mr. and Mrs. W. Hogan motored to Nelson last week, returning on Saturday, when they brought their daughters home after spending a holiday there.

Seven Chinilla rabbits exhibited by R. Steurbaut of Coleman were awarded three first, three second and one third prize at Bellevue exhibition on Monday.

Mrs. G. C. Duncan, wife of the publisher of the Drumheller Mail, is the supreme grand chief of the Pythian Sisters of the province, in succession to Mrs. Cora Glendenning, of Coleman, and she is expected to visit Coleman later in the year on an official visit.

Mr and Mrs J O C McDonald, Mrs. W. L. Rippon, and Miss Stoddart, of Toronto, made the circle tour of the Calgary-Banff-Windermere highway last week.

Judge McDonald in district court on Tuesday heard evidence in a Small Debts Act case, in which J. E. Gillis of Blairmore appeared for defendant and R. F. Barnes for plaintiff, in whose favor judgment was given for \$35 and costs of the action.

Some overcome obstacles in life's path, no matter what the handicap may be. Chris. Rogers nearly three years ago lost an arm in an accident whilst at work. A few weeks later he was out of hospital and ready to again take up life's battle. Though minus an arm, he carries on his duties in an efficient manner, asking no assistance and maintaining a rugged independence in outlook. Moreover, he is an ardent fisherman. Many would have thought that his handicap would have barred him from enjoying his favorite pastime. Not so, however. With a leather socket strapped to him, he can hold the fishing rod and reel them in just as good as a man with two hands. The way he can unhook fish and bait a line or attach flies is almost uncanny, and his day's catch measures up with the best of the fishermen.
